INTERNSHIP EXPERIENCE

China-ASEAN Information Port Co., Ltd

May 2022 - Jul 2022

Digital Government-Enterprise Intern

- Implemented a ship transaction valuation model with a supervised regression algorithm using Python with training data for thousands of ships' profiles and transaction information.
- Applied data visualisation using Tableau to review business insights for management's decision-making.
- Conducted end-to-end industrial analysis of the Southeast Asia maritime industry by using the industry index, studying the financial statements, and analysing the industrial report of major financial institutions.
- Composed three industrial analysis reports and presentation slides.

RESEARCH EXPERIENCE

Research on the Reconstruction of the Tax Cooperation Mechanism between China and ASEAN Countries

- Drafted a chapter on the New International Tax Rules – OCED's Tax Base Erosion and Profit Shifting and the two-pillar plan's impact on China; adopted mixed methods (regression analysis, GRAP models, etc.) to conduct empirical analysis from both national and company-level perspectives.
- Led undergraduate researchers to develop the research framework, managed data collection, monitored the progress, and reported draft reports for discussions.
- Published two relevant academic papers in collaboration with mentor and obtained the certificate issued by the China Humanities and Social Science Foundation.

Research on the Economic Effects and Realisation Paths of the 'Belt and Road' Transportation Facilities

- Reviewed and summarised quantitative literature and drafted the chapter entitled "Report on the Construction of Transportation Infrastructure in the South Peninsula"; assisted the mentor in completing the research.
- Assigned tasks to team members, coordinated the tasks and discussions between the research team and mentor and kept track of the progress to ensure timely completion of each module (covering roads, railways, and ports).
- Successfully led the team to complete a 40,000-word draft in 4 months.

SKILLS LIST

- Vocational skills: Banking Qualification
- Computer skills: Python, Tableau, Microsoft Office suite, Stata, MySQL
- Language proficiency: Putonghua (native), English (fluent), Japanese (basic)
- Hobbies: Volleyball, Badminton
